

# Connect 4 Children

*Working together to give all children a great start with local solutions for local priorities.*

## Places:

Locations focused on early years priorities across Queensland.

## Precision:

The agreed priorities and evidence-based next steps for a community that are captured in a unique Birth to five plan.

## Partnerships:

Local community and services working together to improve the wellbeing of children.

## Pathways:

Enhanced support for early learning priorities including playgroup, kindergarten and early years transitions.

# Connect 4 Children strategy

Through the **Connect 4 Children strategy**, communities in Queensland will develop a plan to help improve the wellbeing of children prior to school (from birth to five years old).

Every community is unique, so the strategies and solutions within each plan will vary.

Each plan will be created locally by the people who are invested in, and care deeply about, the future of that community and its children.
