

Kindy counts. Let's reconnect.

Your local kindergarten is looking forward to welcoming you back.

A successful
reconnection
to kindergarten
is all about:

learning,

wellbeing and

belonging.

Learning

- › Children are always learning
- › Kindergarten provides a place for children to come together to play and learn
- › Educators are skilled and experienced in building on the strengths and interests of children to support learning, wellbeing and development

Wellbeing

- › Connection is essential to wellbeing
- › Kindergarten provides a place to reconnect together – reconnecting friendships and relationships, reconnecting routines
- › Educators support children's resilience to grow, to learn about emotions and build a sense of wellbeing

Belonging

- › Everyone (children, families, educators) working together
- › Kindergarten provides a place for everyone's voice to be heard to support learning and development
- › Educators understand that transitions take time and are unique for each child and family
- › Educators will help children to feel safe and secure in the kindergarten environment
